15C. THE YARD

J. J. DALRYMPLE & COMPANY

Don't Stop

When we repair your watch or clock. For we give every part a particular attention. I only use the best of material. Main springs are genuine, and crystals the best French make. We polish the pivots and make every part smooth so a watch after our repairing doesn't stop.

Note a few of our prices: Main spring, 75c; cleaning, 75c; crystals 15c; staffs from \$1.00 to \$1.50; pin tongues 10c, and all other work in proportion.

Gustaf W. Sackriser, of Mohama, a native of the kingdom of Sweden, has been admitted to citizenship.

About Salemites.

The Wide-Awake Albany Democrat man has the following about three Salemites.

Homer Davenport, the celebrated artist left New York last Friday for Africa and London, to do special work for the New York Journal. He will be equal to the occasion, and we may expect to see President Kruger as he really is. Homer will give those who wish a touch never before penciled.

The greatest genius at Yaquina Bay is Mr. Thomas, the lapidist. With his windmill and fine set of tools and machinery he does most anything with the water stones, moss agates and other pretty stones found on the beach. His windmill is so arranged through his own ingenuity that it will do almost anything but write a letter on the Philippine question. Mr. Thomas's work is equal to that of the best lapidists in the big cities.

CAPT. HORACE HOLDEN IN ALBANY.

Capt. Horace Holden and granddaughter, Miss Anna Holden, of Salem, spent Sunday in Albany, the guests of Mrs. Walter Ketchum. Mr. Holden is now 89 years of age, having been born July 10, 1800, in Hillsboro, New Hampshire. His career has been a very interesting one, one that continues very vivid in his memory, so that he is able to narrate the wonderful adventures of his life in a manner not surpassed by the story books. In early life he was a sailor, going out from Boston. In 1832 he left on a trip around the world. The vessel was wrecked off the Sandwich islands and the crew were taken captive by the natives, where they were kept for three years, when eleven of them made their escape. Mr. Holden is the only one surviving and he gives promise from his present condition of having a good many more years. He afterwards returned to the islands as a sugar planter. In 1844 he came to Oregon, his home since then, residing near Salem, respected by a large circle of friends.

Reception.

When preparing to give the Volunteers a reception, remember that you need not burden yourself with cooking dinner as that can be at had the Wonder Restaurant.

To cure La Grippe, keep warm, especially the feet, and take Dr. Miles' Nerve.

There was a merry crowd at Sulphur Springs last Sunday. People were there from Albany, Salem, and Corvallis. The greater part of them rode wheels and almost all the rest started from the springs in a body. At the head of the line of cyclists were two wheelmen with their bikes coupled, as the rear man had his chain broken and had to be put in tow by his associate. A long steep hill was reached which they had to descend. They started down this and found to their sorrow that no back peddling could be done in their mutual relations as the man ahead had to peddle furiously to keep out of the way of the wheel behind him. Down the hill they flew clearing boulders with wild leaps and leaving the remainder of the party in the dust. At the foot of the hill the road made a sharp curve. On reaching this the wheelmen dissolved all mutual relations, one taking the rocks and rose bushes on the lower side of the road, and the other scorcher chose the back brush and fern on the opposite side. Before they could gather themselves together and remove the connecting rope from across the road, the remainder of the wheeling party tore down upon them and from the explosion of dust that followed resulted a general mixup of wheels and legs that would have puzzled an expert to untangle.—Corvallis Gazette Union.

THURSDAY'S RECEPTION.

To the Second Oregon Will Be All Right.

Boys Will Be Fed Some and Lionized a Good Deal.

The arrangements for the reception of the Second Oregon are progressing in a very satisfactory manner, and the boys will be welcomed and lunched during their short stay here, and made to feel that the people of Salem are glad to do them honor.

Messrs. Cland Gatch and T. C. Smith have general supervision of the arrangements, and Mrs. Moore, wife of Associate Justice F. A. Moore, will have charge of the refreshment tables which are to be spread in the corridors of the lower floor of the capitol building.

The tables are being put in by Joe Fones and A. W. Dennis, and accommodations for about 700 men will be provided.

Contributions of all sorts of eatable delicacies are solicited, and flowers and decorations will also find a warm welcome at the hands of the committee.

Room 10, on the lower floor of the capitol has been set apart for the reception of contributions, and either Mrs. Moore or Frank Davey will be there to receive them.

W. A. Moore is out collecting the funds to defray the expenses of the reception. It is not expected that more than half the fund raised will be used, and in any case only such percentage of the subscribed amounts will be collected as may be necessary to pay the bills.

The Albany company will stop at Albany and the Oregon City members of that company will stop off with them, and on next day all of Co. 1, will go down to Oregon City. So that I. Co., will get two receptions, but not many of them will be at Salem.

Let us all turn out and do our best to impress the boys with the fact that we fully appreciate the glorious record they have made for themselves and their state. We Oregonians are inclined to be somewhat sluggish and conservative, or at least slow to enthusiasm. Let us shake off our lethargy once and give the boys a rousing reception; make some noise; and leave no doubt in the minds of any of the volunteers that the people at large appreciate their heroism.
